

The simple accounting solution for sole traders

Combining modern accounting software with optional expert support — stay compliant, understand your numbers and avoid year-end stress.

Kletta

Everything a sole trader needs — in one place

Kletta is a HMRC recognised and preferred accounting solution provider, enabling compliancy with the MTD for ITSA mandate.

Mobile or desktop, real-time transparency

MTD digital records and filing updates

In-app chat and accountant support

Create invoices

Scan receipts

Track mileage

Over 3000 sole traders trust Kletta already

4.14 / 5
Customer satisfaction

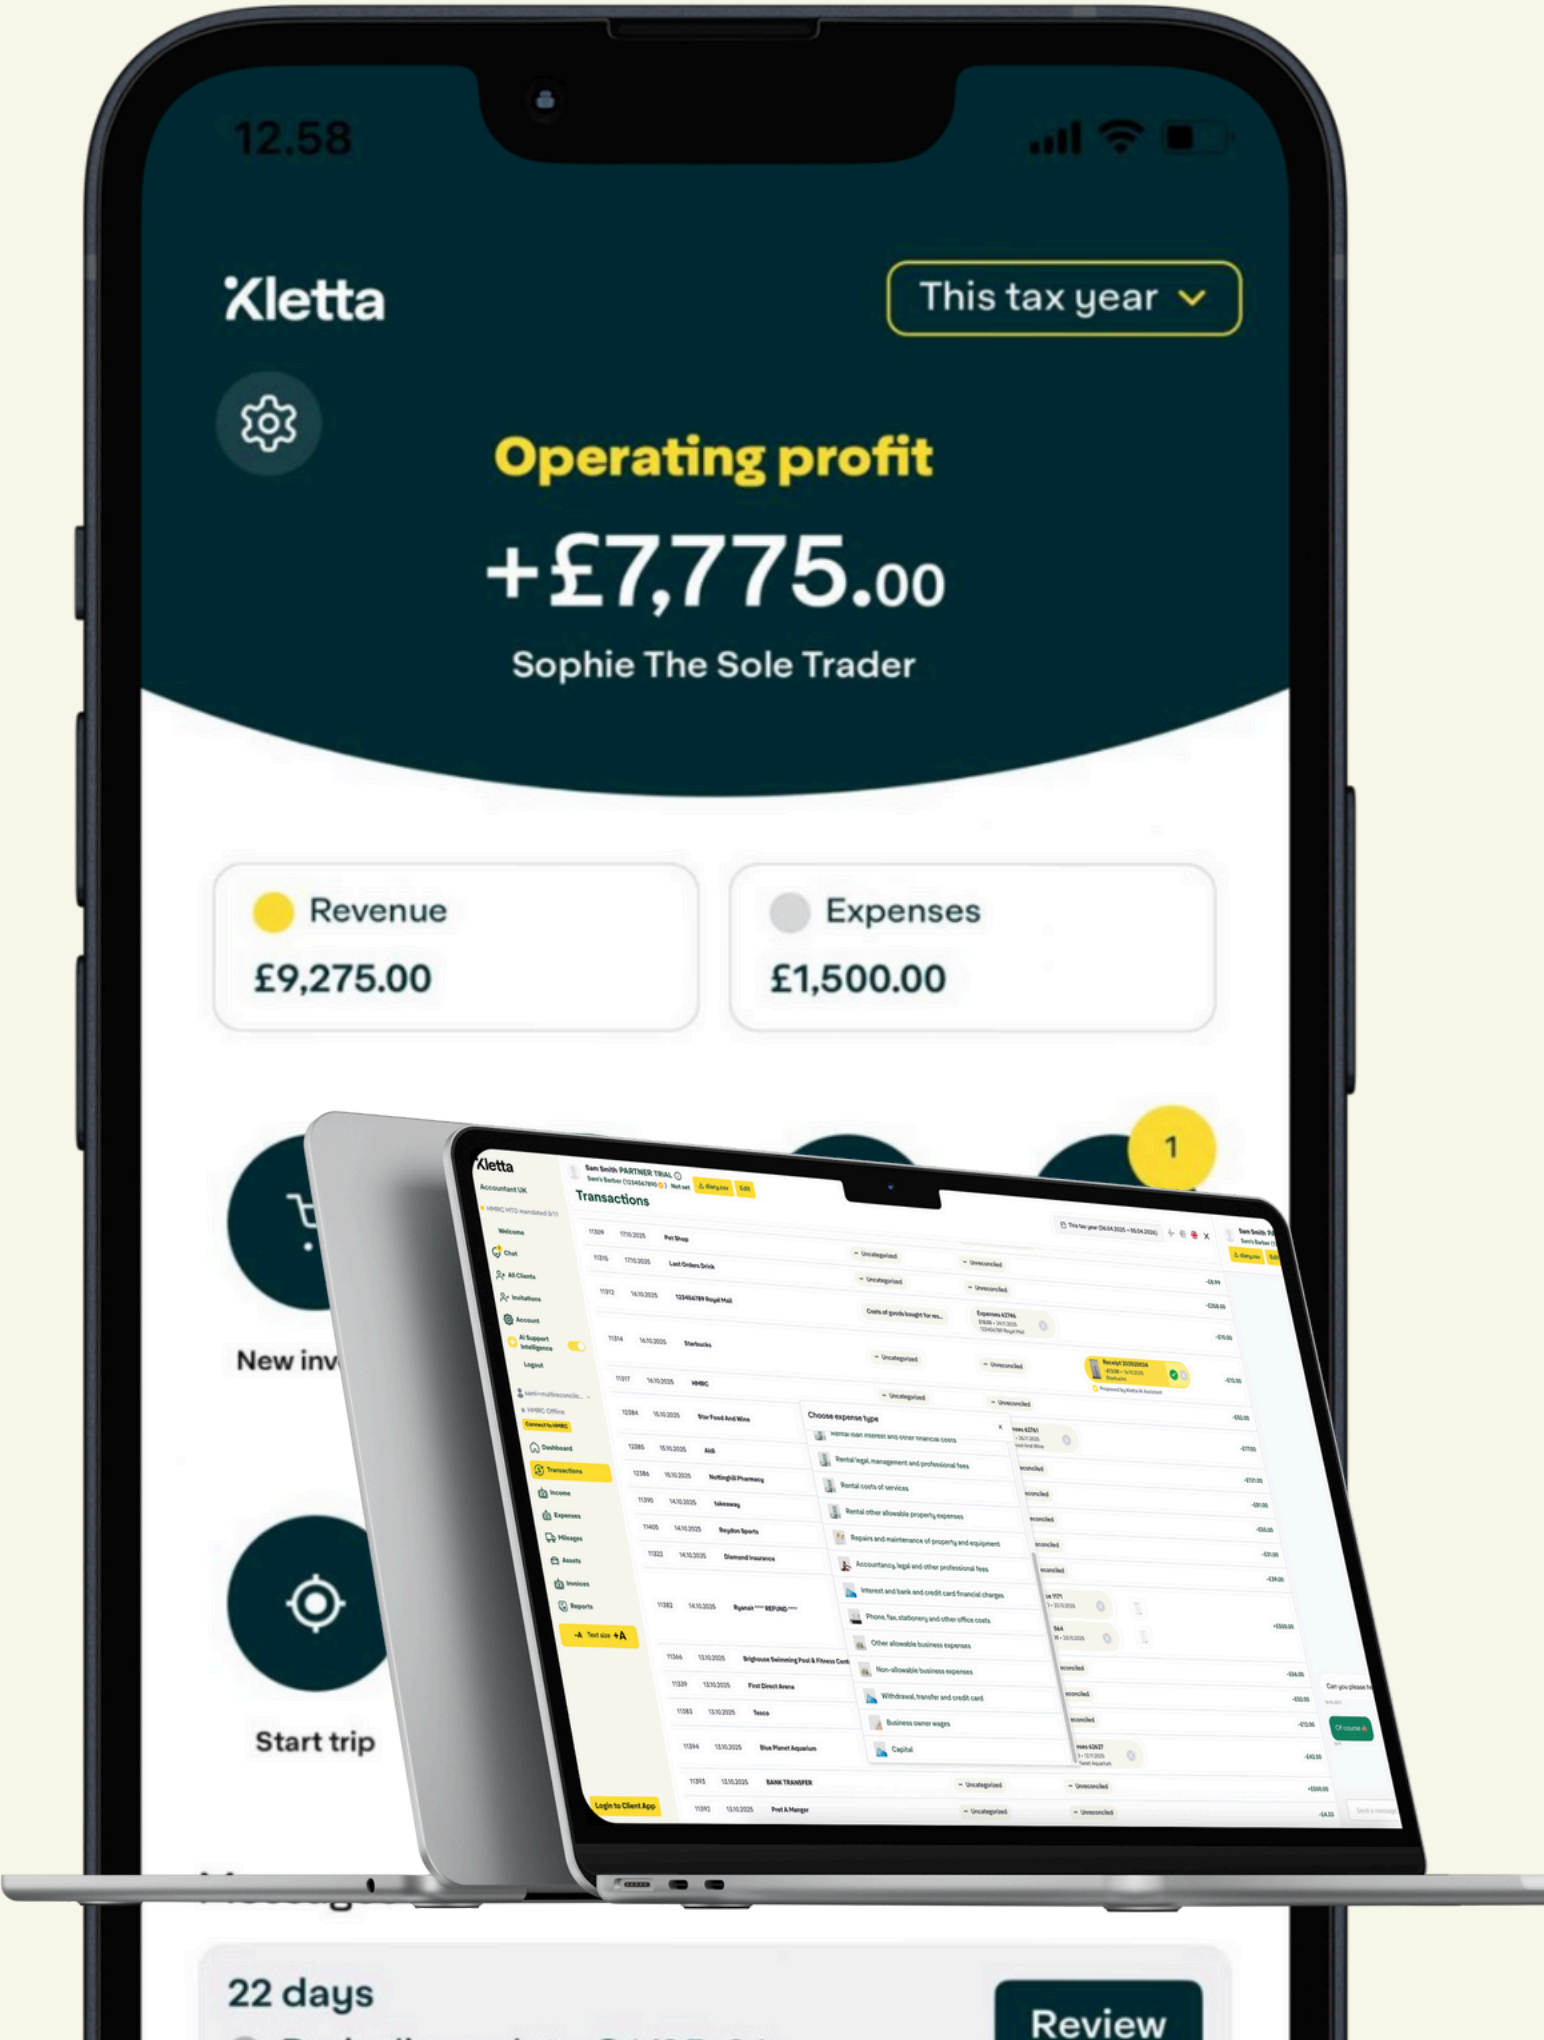

4.31/5
User experience

4.23/5
Onboarding

Most accounting tools are built for limited companies or accountants — not for people running a business on their own. Kletta was created to fix this.

Kletta's subscription plans

- **Clear monthly and quarterly summaries**

✦ -50% until MTD: £24.5/mo or £229.5/y

The most important features in Kletta that make bookkeeping easy

The screenshot shows the Kletta mobile app interface. At the top, the Kletta logo is on the left, and a dropdown menu for 'This tax year' is on the right. Below the logo is a gear icon for settings. The main header displays 'Operating profit' in yellow and '+£7,775.00' in large white text, with 'Sophie The Sole Trader' below it. A yellow line points from the 'Real-time transparency' callout to the settings gear icon. Below the header, there are two boxes: 'Revenue £9,275.00' with a yellow dot and 'Expenses £1,500.00' with a grey dot. A yellow line points from the 'Income and expense breakdown' callout to the Revenue box. Below these are eight circular icons in a 2x4 grid: 'New invoice' (shopping cart), 'Add entry' (up/down arrows), 'New Product or service' (plus sign), 'Chat' (speech bubble with a yellow '1' badge), 'Start trip' (target icon), 'Add trip' (location pin), 'Scan receipt' (camera with a yellow plus), and 'Upload receipt' (upload icon with a yellow plus). A yellow line points from the 'Create and send invoices' callout to the 'New invoice' icon. Another yellow line points from the 'Add accounting entries' callout to the 'Add entry' icon. A third yellow line points from the 'In-app chat' callout to the 'Chat' icon. Below the icons is a 'Messages' section with a '22 days' indicator and a 'Periodic update Q1/25-26' status, with a 'Review' button. A yellow line points from the 'MTD records & reports' callout to the 'Review' button. A fourth yellow line points from the 'Capture expenses' callout to the 'Scan receipt' icon.

Real-time transparency
Full transparency to how your business is doing and what taxes are owed

Income and expense breakdown
Easily see how much and from what sources you have income and expenses

Create and send invoices
Simple and fast invoicing, invoice customers even on the go!

Track mileage or add trip
Track mileage with easy start-stop map integration or add a trip afterwards

Add accounting entries
Simply upload any report to add entry for income or expense

In-app chat
Chat with Kletta AI agent or with human support. In Duo and Care you can also book an expert meeting.

Capture expenses
Simply scan your receipt or upload a file. The system will automatically read it and propose an entry.

MTD records & reports
MTD for ITSA compliant digital records and automatic quarterly updates and year-end EOPS/final declaration in a easy to follow feed.

Making Tax Digital for Income Tax Self Assessment (MTD ITSA)

Making Tax Digital for Income Tax Self Assessment (**MTD ITSA**) is **HMRC's** (His Majesty's Revenue and Customs) next major step in **digitalising the UK tax system**.

From **April 2026**, **sole traders and landlords** with annual business or property income will **need to**:

- Keep **digital records** of income and expenses
- **Submit** quarterly updates and an End of Period Statement EOPS (annual report for business income) **through HMRC-recognised and approved software**
- File their **final declaration**, so annual report for personal income (replaces year-end self assessment) **via the same digital system**

MTD mandate is based on annual income thresholds:

Phases

Business or property income threshold

April 2026

Above £50 000 in MTD scope

April 2027

Above £30 000 in MTD scope

April 2028

Above £20 000 in MTD scope

Challenges for sole traders related to MTD

- Adoption of new bookkeeping and processes
- Additional work with HMRC report submissions
- Added work, stress and pressure for individual entrepreneurs
- Penalties are increasing for late submission or non-compliance
- MTD isn't just a compliance change, it essentially reshapes the way sole traders lead their business

What makes Kletta different from other accounting options for sole traders

1. Built specifically for sole traders and their needs ✨
2. Kletta includes modern software with real UK accountant support ✨
3. One solution for business and property income (Duo & Care) ✨
4. Works with or without a connected bank account ✨
5. Transparent pricing with no surprises (including accountant support) ✨
6. Designed for MTD from the ground up – full compliancy ✨
7. Clear plan upgrade path as your needs change ✨
